BUTIRAN LAPORAN | REPORT DETAILS

KEHADIRAN <i>ATTENDANCE</i>			
Report & Analysis	A total of 52 students have registered for both Group A and B of this course. Overall classes were conducted physically, synchronously, and/or asynchronously online (for public holidays and planned as PTG). All students who are not able to come to class have provided letters or medical certificates (MC)s.		
Corrective Action	Students are required to provide a medical certificate (MC) or letter of absence. Valid reasons should be given by the students and students are also be monitored for their participation.		
Preventive Action	Students are reminded to inform the lecturer if they are not able to attend the class and to provide MCs or letters. Attendance is taken every week and any absences are investigated.

PENCAPAIAN AKADEMIK <i>ACADEMIC PERFORMANCE</i>	
Report & Analysis	Students are involved in active teaching and learning sessions. Every week there will be a group assigned to find question/s related to the HOTs topic in DSKP and a group is assigned to answer the question/s. A mid-semester test has been conducted. Students' performance is average.
Corrective Action	Feedback is given to the students about their performance in the test and tasks given. Any misconception or misinterpretation was corrected during class sessions or discussions.
Preventive Action	Students are reminded to prepare and be alert for classes and be prepared to ask questions and answer the questions asked during teaching and learning. They are encouraged to align with the CLOs of the course and have a better view of the application of the knowledge for their future.

KEMAHIRAN INSANIAH <i>SOFT SKILL</i>	
Report & Analysis	The soft skills are implemented via SULAM preparation, practical classes, presentation, and active learning during QnA and teaching and learning sessions. Almost all students participated in the activities.
Corrective Action	All activities are monitored closely. Any absent group members are questioned and feedback is given to the students.
Preventive Action	Student participation in enhancing soft skills is monitored closely. Students are reminded to work in groups for the task given. Advice is given for developing them as future teachers.

PROSES KESELURUHAN <i>OVERALL PROCESS</i>	
Report & Analysis	Overall the teaching and learning have taken place and students are provided online materials eg recorded videos, and YouTube links to related topics in MyGuru. School visits and discussion has been performed at the chosen school, and students are preparing the materials to conduct SULAM. Students collaborate with Universitas Negeri Padang in conducting their SULAM project. Students are also involved in SULAM innovate competition by MoHE.
Corrective Action	Students were given feedback from time to time to allow improvement to take place before the assignment was accomplished and to fulfill the CLO attainment.
Preventive Action	All students group must make an appointment with the lecturer to discuss their progress and to get feedback. The consultation appointment is also monitored.
