Faculty: Faculty of Science and Mathematics  
Fakulti : FSMT : Fakulti Sains Dan Matematik

Semester : Semester 1 Sesi 2022/2023  
FSMT-BIO - Biology Department  
FSMT-BIO - Jabatan Biologi

Course code Kod Kursus	Course Description Keterangan Kursus	Overall index Indeks Keseluruhan	Failed student Pelajar Gagal	Coordinator's Note Catatan Penyelaras	Head of Department Note Catatan Ketua Jabatan
SBF3023	Plant Physiology	70.0%	-	Generally, students performed well in reports and written assignments in this subject. The experiment showed very nice efforts by the student to run the experiment, by giving a live lecture and also uploading a record for the class each week for the students who wanted to rewatch the class again. A drop in students' marks was expected after the pandemic online exam in the previous semesters, especially for this subject with both face-to-face midterm and final examinations. Overall, students are adapting well to the post-pandemic situation. Their overall performance can be considered reasonable.	Teruskan usaha untuk memantapkan kualiti pdp kursus ini.  Continue efforts to strengthen the quality the course's TnL
SBF3033	Animal Physiology	73.8%	-	CLO1  To improve the attainment of CLO1, a series of quizzes will be conducted to evaluate students' understanding of the relevant topics.	Cadangan yang sesuai untuk dilaksanakan pada semester hadapan.  Cadangan yang sesuai untuk dilaksanakan pada semester hadapan.
